Quarterly Newsletter of India Renal Foundation Issue 89 : July – September 2024

Dear Friends,

Greetings!

India Renal Foundation is the only organization in Gujarat dedicated to kidney-related issues for the past 22 years. We have reached every corner of the state, working tirelessly to educate society about diseases such as kidney ailments, diabetes, and blood pressure while guiding people toward a healthy lifestyle.

To enhance the impact of our initiatives, we regularly organize blood pressure and diabetes screening camps in rural areas using vans allocated to each of our chapters. Participants are educated on managing chronic conditions like BP and diabetes through comprehensive guidance. We are receiving an excellent response from gram Panchayat and villagers for this effort.

August 13 is celebrated as Organ Donation Day in India. This day aims to raise awareness about cadaveric organ donation (after brain death). Since 2006, India Renal Foundation has been actively promoting public awareness of organ donation under the Jeevandan programme. On this day, various activities such as organ donation awareness seminars, poster competitions, rallies, drama, and road shows were conducted at our chapters to encourage participation. Additionally, our ongoing kidney awareness programs provide detailed information about cadaveric organ donation to motivate people to pledge their organs.

Through the organization's Save a Life programme, we provide treatment assistance to kidney patients in need. This effort is supported by the generous contributions of society's philanthropic members. For instance, a charity music show organized by the Stage Entry Musical Group, Vadodara on September 19, under the noble leadership of Shri. Rohitbhai Parikh—an active member of our Vadodara Local Advisory Committee—raised ₹1,50,000 in donations. I extend heartfelt gratitude to Shri Rohitbhai Parikh, Shri Mukeshbhai Joshi, and Shri Rajeshbhai Pandya, along with the group's members and donors.

On behalf of the organization, I express my sincere thanks to all our well-wishers, donors, sponsors, and volunteers who have contributed selflessly to these service activities.

With deep sorrow, I inform you about the passing of our Vadodara City Advisory Committee member and philanthropist, Shri. Jal Patel, on August 21, 2024. He had been associated with us since the organization's inception. May his soul rest in peace.

Wishing you all a Happy Diwali and a prosperous New Year!

Best Wishes,

Trilokbhai R. Parikh Chairman

World Organ Donation Day

When discussing organ donation, most people think it occurs after natural death. However, vital organs such as the kidneys, liver, and eyes can only be donated by a brain-dead person, as organs cannot be transplanted after natural death. Unfortunately, public awareness about this is minimal, leading to low cadaveric organ donation rates in our country.

What is Brain Death?

Brain death results from severe injury or bleeding in the brain, causing a complete cessation of brain functions with no chance of recovery. Although life cannot be sustained, artificial support systems (ventilators) can maintain blood circulation to vital organs, enabling potential donation. A brain-dead individual cannot regain consciousness or recover.

To promote awareness of cadaveric organ donation, World Organ Donation Day is celebrated annually on August 13. India Renal Foundation organized various programs across its chapters to mark the occasion.

Ahmedabad

On this day, an awareness program was conducted at the Government Polytechnic for Girls College, Navrangpura. Dr. Jigar Shrimali (Nephrologist) provided comprehensive insights into cadaveric organ donation and encouraged students to pledge their organs. Another session was held at Bharatiya Vidya Bhavan's Sheth R.A. College of Science for students and teachers.
